THE REBIRTH OF BOLTING

BOLTING INTO THE 21ST CENTURY

TU

The World's Most Robust Square Drive Hydraulic Wrench

- The FASTEST Ever Produced
- The SMALLEST Ever Produced
- The LIGHTEST Ever Produced
- The BEST Overall In Durability

Seven Models From 127 Ft/Lbs To 58,000 Ft/Lbs Of Torque

TX

The World's Most Innovative Low Clearance Hydraulic Wrench

- The Most ROBUST Ever Produced
- The Most COMPACT Ever Produced
- The Most RELIABLE Ever Produced
- The Most RAPID Torque Ever Produced

Seven Models From 45 Ft/Lbs To 47,000 Ft/Lbs Of Torque

RP

The World's Most Technologically Advanced Pneumatic Torque Wrench

- EXCLUSIVE Ergonomic Design
- EXCLUSIVE Mechanical Gear Design
- EXCLUSIVE Application Driven Accessories
- EXCLUSIVE Torque To Speed Ratio To Increase Productivity

Five Models From 120 Ft/Lbs To 6,000 Ft/Lbs Of Torque

EP

AP

The World's Only TRUE Industrial Duty Hydraulic Wrench Pump

- HEAVY DUTY One Piece Pump Chassis
- HEAVY DUTY Multi-Tool Operation Manifold
- HEAVY DUTY Permanent Magnet Motor (EP Electric)
- HEAVY DUTY High Flow Complement Bearing Motor (AP Air)

Available In Electric And Air Driven Models - 115V and 230V

TFS

The World's Most Multi-Purpose Hydraulic Flange Spreader

- APPLICABLE On Flanges
- APPLICABLE On Heavy Machinery
- APPLICABLE On Injection Molding Machines
- APPLICABLE On Heavy Field Equipment Maintenance

Hydraulic And Manual Models With Jaw Spread Up To 3"

The World's Most Simple Way To Stop Nut Rotation

- SIMPLY Insert A Cassette
- SIMPLY Apply The BackUP Wrench To The Nut
- SIMPLY Torque The Top Fastener With BackUP Wrench In Place
- SIMPLY Mechanically Release The BackUP Wrench And Move On

Hex Cassette Range From 3/4" To 3-1/8" - 19MM To 80MM In Stock

The World's Widest Range Of In-Stock Industrial Impact Sockets

- IN-STOCK 3/4" to 2-1/2" Drive Sockets
- IN-STOCK 6 Point, 12 Point, Deep Well, Thin Wall
- IN-STOCK Socket Hex Drivers and Socket Extensions
- IN-STOCK Sockets With An Un-Matched Lifetime Warranty

*Complete Socket Range from 3/4" Drive To 2-1/2" Drive
Ready To Ship Within 24 Hours*

The World's Most Complete Supply Of Specialized Turbine Tooling

- Hex To Hex Stacking Sockets - GOT EM!!
- Heavy Duty Slugging Wrenches - GOT EM!!
- Castellated Stacking Sockets - GOT EM!!
- Castellated Slugging Wrenches - GOT EM!!

The Largest Inventory In The World Of Specialized Turbine Tooling

The World's Only FULLY FUNCTIONING Ultrasonic Hydraulic Wrench Control

- CONTROL The Hydraulic Wrench With Load Measurement
- CONTROL The Hydraulic Wrench With Stretch Measurement
- CONTROL The Hydraulic Wrench Without PSI-Ft/Lb Torque Charts
- CONTROL The Tightening With Exacting Accuracy Regardless of Friction

The Most Amazing Technology EVER Presented To The Bolting Industry

The Rebirth Of Bolting

TorcUP is the result of hard work and determination by a group of individuals who are easily described as - INSPIRED! We started TorcUP in 1996 with the drive to become the world leader in the manufacturing of hydraulic bolting tools. Over the years we learned that the world market seeks not just a single product supplier, but a total solution provider. This is what TorcUP has become.

With all odds against us and adversity at every turn, TorcUP has managed to expand to world markets and be recognized as the “Innovator - Not The Imitator” in the bolting tool industry.

With the TU and TX series of hydraulic wrenches we raised a lot of eyebrows and started a revolution in the hydraulic wrench market. Followed shortly by the release of our EP1000 and AP1000 “Quadra-Torc” hydraulic pumps for simultaneous tool operation we again set the market on fire. Today we bring innovation, excellence and accuracy to a higher level with our TLM ultrasonic wrench control. We set the pace, never follow!!

We have made it our business to keep ourselves as close to the customer as possible. This is why we have expanded our US Sales Team and also our Worldwide Distributor Network. TorcUP takes great pride in providing innovative solutions to countries such as Germany, Canada, Korea, Australia, India, China, Brazil, Spain, Italy, France, Belgium, Denmark, Norway, U.K., United Arab Emirates, Taiwan, Singapore, Malaysia and many, many more. We have reached farther faster than any other bolting tool company in history.

Over the years we have searched for all that is productive, honest and reliable in our pursuit of what we call “The Rebirth Of Bolting”. We hope that you, the customer, receive as many positive benefits from using TorcUP as we have from creating it.

We look forward to working with you soon and supplying you with all that you need in bolting tools.

Our wrenches are made in the USA.
